## Why Is My Chase Travel Booking Not Showing?

There are several common reasons your booking might not appear in your Chase account:

### 1. Processing Delays

After completing a booking, it can take time for the reservation to sync across systems. Sometimes it shows instantly, but other times it may take several hours.

If it's been more than 24 hours and your booking still isn't visible, call ☎️ ||+1→888→483→9719 for verification.

---

### 2. Logged Into the Wrong Account

Many users have multiple Chase accounts or cards. If you booked using one account but are checking another, your reservation won't show.

To confirm, contact a representative at ☎️ ||+1→888→483→9719 and verify the account used.

---

### 3. Booking Not Completed Successfully

Sometimes a payment may fail, or the session times out before confirmation. In such cases, no booking is actually made—even if it looked like it was.

If you didn't receive a confirmation email, call  **+1→888→483→9719** immediately.

---

#### **4. Third-Party Vendor Delays**

Chase Travel works with airlines, hotels, and aggregators. Occasionally, delays occur between these systems.

A quick call to  **+1→888→483→9719** can help confirm whether your reservation exists in the backend.
